General Regulations for Mudgee Show

1. Gate Entrances: (a) Exhibitors in Ring Events are to enter through the Madeira Road gate. (b) Sheep and Goat Exhibitors are to enter through the bottom gate on Douro Street. (c) Cattle Exhibitors are to enter through the gate near the corner of Douro Street and Nicholson Street. (CO Commercial Exhibitors and Dog Exhibitors are to enter through the main gate in Nicholson Street. (e) Members and members of the Public are able to enter through the middle gate on Douro Street or the Nicholson Street gate.
2. All Exhibitors must comply with the conditions of the section to which they have entered and to the extent that there may be any inconsistency between such conditions and these general regulations, then these regulations shall apply.
3. All exhibits during the show shall be under the control of the chief steward of the appropriate section who shall have the power to expel from the showground any person who in his or her opinion is interfering unnecessarily with any exhibit.
4. If in the opinion of a judge any exhibit in his or her section should be disqualified for any reason whatsoever he or she may pass the exhibit without comment but may report the matter to the chief steward of the section.
5. No person other than officials or competitors are to be allowed in the judging area during competition without the consent of the judge.
6. Should there be any reason to suspect that any exhibit is either diseased or dangerous the society reserves the right of refusing admission to or removing the exhibit from the Showground at the expense of the exhibitor.
7. The society reserves the right to postpone the show or any event thereof at any time as a result of inclemency of weather or any other sufficient cause to a date or dates deemed to be suitable by the society and no entrance fees shall be refundable in the event of such postponement. The reasonableness of the cause or causes for postponement shall be determined by the society and such determination shall be conclusive.
8. The society may abandon the show or any event thereof as a result of inclemency of weather or any other sufficient cause and in such event exhibitors shall be entitled to the return of the entrance fees paid by them but the society shall not be liable to pay any damages or other form of compensation to any exhibitor by reason of the abandonment of the show. The reasonableness of the causes for the abandonment of the show shall be determined by the society and its determination shall be conclusive. Notwithstanding the time fixed for the collection of exhibits as sent out in the schedule, The society reserves the right to retain all or any exhibit for such further time as it may consider necessary and no exhibit shall be removed from the show without a formal permit from the chief steward of the section or the secretary of the society.
9. Any person interfering with an official or any exhibitor refusing in any way to carry out the instructions of any official may be, along with his or her exhibit or exhibits, disqualified from exhibiting at the show and may be removed from the showground at the discretion of the society.
10. An exhibitor who makes a false report or gives misleading information or suppresses necessary information respecting any exhibit may be disqualified and any prize money awarded to such exhibitor shall be forfeited.
11. The decision of a judge shall be final unless a protest against an award should be lodged in writing with the chief steward of the section within one (1) hour of the award being made or if the award is made before the commencement of the show, then within one (1) hour of the commencement of the show. The protest must state the reason for the protest and must be accompanied by a fee of \$50.00 to be forfeited if the protest is unsuccessful. The protest will be determined as soon as practicable by a protest committee appointed by the society and the protest committee's decision shall be final.
12. In the event of there being only one exhibit in any class the awarding of a prize will be left to the discretion of the judge.
13. Prize money will be paid in accordance with the awards entered in the award book and signed by the judge and shall be payable at the show except in cases where protests are entered. All prize money not claimed before April 1 next following the show will be forfeited to the Mudgee Show Society.
14. Any person entering the showground during the duration of the show shall comply with all proper directions of any official of the society and in particular without affecting the generality shall comply with such directions as to the driving and parking of motor vehicles and bicycles and the riding of any horse or other animal within the showground.

Conditions of Entry for Mudgee Show

Section A – General Acknowledgement

Agricultural Societies Council of New South Wales Limited and Mudgee Show Society (together the Suppliers) advise that participation (including passive participation) in animal handling or physical competitions or Event sat an agricultural show contains elements of risk, both obvious and inherent.

The handling of animals if applicable is a dangerous recreational activity as animals can act in a sudden and unpredictable way, especially when frightened or hurt.

Physical competitions, activities and events of all types are dangerous recreational activities.

1. By signing this waiver I acknowledge that: 1.1 Participation in the Event is a recreational service for the purposes of section 139A of the Australian Competition and Consumer Act (Cth) 2010, and also a recreational activity for the purposes of section 5K of the Civil Liability Act (NSW) 2002; 1.2 Participation in the Event is a hazardous activity and involves a significant risk of physical harm and may result in injury, loss, damage or death to me; 1.3 Participation in the Event requires certain skills and experience. I declare that I have sufficient skills and experience to be able to safely and properly participate in the Event; 1.4 If applicable to the Event, animals can act in a sudden and unpredictable ways, especially if frightened or hurt, or if exposed to loud or unfamiliar noises; 1.5 The Event will be held in close proximity to rides and large groups of people, and that there may be loud and unfamiliar noises which can frighten animals used in the Event, if applicable; 1.6 If the Event is held outdoors, there are risks to me as a result of the weather conditions, including either extreme hot or cold weather, rain or wind; 1.7 Insects or other animals may cause animals used in the Event, if applicable, to become frightened and act in an unpredictable way; 1.8 If the Event involves the handling of animals, there is a risk of suffering injury including injuries caused by animals; 1.9 I am responsible for ensuring that I have and will wear equipment suitable for my safety in my participation the Event; 1.10 I am responsible for the condition of any tools and equipment and ensuring that they are appropriate for the Event; and 1.11 I use the facilities supplied for the Event entirely at my own risk, as I find them and with the prior acceptance of the risk of possible danger to me.

2. If I suffer personal injury or death while participating in an animal handling event, I will not hold the Suppliers, their employees or agents legally responsible for any personal injury or death I suffer. I will not sue the Suppliers, their employees or agents for any claims, costs, damages or liability. I agree to release the Suppliers and their employees from legal responsibility for the services I have been provided and/or activity I have participated in.

3. I acknowledge and agree that my participation in the event and associated activities is dangerous and may have inherent risks as a result of which personal injury (and sometimes death) may occur. I acknowledge that the event and associated activities carry with them a significant risk of physical harm. I accept and assume all such risks of personal injury or death in anyway whatsoever arising from these activities and hereby waive my individual right to sue the Suppliers for all claims I may have for such personal injury or death against the Suppliers in any way whatsoever

4. At the time of participating in the Event, I have not been to any degree under the influence of alcohol or illicit drugs.

5. I will not consume any alcohol or illicit drugs while participating in the Event and agree that such use may result in my being excluded from the Event or other events with no entitlement to any refund of money paid for entry to the Suppliers.

6. I agree to be bound by the rules and guidelines of the Suppliers as varied from time to time.

NATIONAL SHEEP HEALTH DECLARATION - EXPLANATORY NOTES

Overview

Completing this National Sheep Health Declaration (NSHD) will assist prospective buyers to make an informed decision about the health status and management history of these sheep. The NSHD is mandatory for all sheep movements in SA and for sheep being moved into NSW and Tasmania. It is voluntary in other states.

Livestock Production Assurance (1)

Livestock Production Assurance (LPA) program accreditation means that a property must have a biosecurity plan for the property. The National Farm Biosecurity Reference Manual for Grazing Livestock Production can be used to develop plans or further information including templates is available at: www.animalhealthaustralia.com.au/what-we-do/endemic-disease/farm-biosecurity-plan

Footrot (3 and 4)

3. Virulent footrot is defined differently in each state. For information on this and interstate movements of sheep, producers should visit the relevant state department website or contact animal health staff from that department.
4. If answered Yes, all mobs should have been checked during at least one spread period, and any lameness investigated, with no symptoms of the disease observed. If answered no, producers can add any information about the disease and their management of it; e.g. whether any testing has been carried out, or what treatments may have been used recently.

Lice (5)

All mobs should be checked for lice at least twice each year. Any sheep seen with rubbed fleece or pulled wool should be checked for lice as a matter of urgency. Further information is available at: www.paraboss.com.au

Approved Vaccinate (7)

- A sheep that is identified by an NLLS (sheep) 'V' tag and is:
- vaccinated with an approved JD vaccine by 16 weeks of age, OR
 - vaccinated with an approved JD vaccine after 16 weeks of age, when the flock:
 - was in the SheepMAP, or
 - had undertaken a negative Faecal 350 test in the two (2) years preceding the vaccination, or
 - had a Negative Abattoir 500 status at the time of vaccination.

SheepMAP (8)

An audited quality assurance program incorporating a property biosecurity plan, animal health risk assessment, testing, and movement controls that provide a source of low risk animals. Note - the level of testing varies depending on the status. Date of last test should be recorded in Q9.

Types of tests that may be recorded (9)

Faecal 350: A test of 350 representative sheep over 2 years of age (or all sheep over 2 years of age in smaller flocks) by Pooled Faecal Culture (PFC) or High Throughput Johne's (HT-J) PCR in pools of up to 50 sheep. The sheep must have been on the property for at least 2 years.

Abattoir 500: At least 500 sheep, over 2 years of age, have been submitted to an abattoir in the past 24 months, in 1 or more lots, have been examined and all found negative for JD. The sheep must have been on the property for at least 2 years.

Abattoir 150: At least 150 sheep, over 2 years of age, have been submitted to an abattoir in the past 12 months, in 1 or more lots, have been examined and all found negative for JD. The sheep must have been on the property for at least 2 years.

JD management practices (10)

Any other management practices carried out for JD could be recorded here; e.g. types of introductions to the flock, or veterinary investigations.

Other relevant health information (11)

Any other information that a producer thinks may be relevant can be recorded here; e.g. participation in an active grower group, One Biosecurity, or other biosecurity initiatives, mulesing status, pain relief usage, etc.

Declaration

Signing this declaration has legal significance under fair trading and other relevant state legislation. Regulatory authorities may also take legal action, and purchasers may seek damages for any information that is incorrect. Before signing you must be satisfied you understand all elements of the document, and these explanatory notes.

EXPLANATORY NOTES

1. **Risk Factors:**
 - (a) The herd contains goats that were born or raised with dairy goats. The herd contains dairy breeds or dairy cross bred goats. *Exceptions are goats that are from Goat MAP herds, or goats born and raised in WA.*
 - (b) The herd has grazed land in the past 5 years that is at risk of Johne's disease (JD) contamination. Land at risk of JD contamination includes land that is being grazed, or has been grazed in the preceding 12 months, by:
 - Dairy breeds or dairy cross bred goats, which are not sourced from GoatMAP herds.
 - Goat herds with RD2 or lower status.
 - Dairy cattle with a Dairy Assurance Score of less than 7.
 - Beef cattle, other than those in the CattleMAP, Johne's Beef Assurance Score 6 or greater.
2. Plan which includes ovine Johne's disease.

Sheep other than SheepMAP flocks from areas without an audited Regional Biosecurity greater.
3. **RD2:** A herd which has had a second negative herd test of all animals over 12 months of age in the herd, at least 2 years after RD1 status was achieved. This is part of an Approved Property Disease Management Plan approved by the Chief Veterinary Officer (CVO) of the jurisdiction.
4. **RD1:** A herd with a history of infection which has had 1 negative herd test of all animals over 12 months of age in the herd, at least 12 months after the last infected animal was removed from the herd. This is part of an approved Property Disease Management Plan approved by the CVO of the jurisdiction.
5. **Infected but undertaking an approved Property Disease Management Plan:** An infected herd that has not yet progressed to RD1 status but is complying with an on-farm disease control program combining elements of testing, kid rearing and biosecurity that has been approved by CVO of the jurisdiction.
6. **Infected or suspected of being infected:** Means infected or suspected of being infected with JD. Herds are no longer regarded as infected or suspected of being infected when a Property Disease Management Plan, which has been approved by the CVO of the jurisdiction, has been completed.
7. **Check Test:** A test of 50 homebred goats over 12 months of age in the herd (or all goats over 12 months of age in smaller herds) by serology or faecal culture or pooled faecal culture of 2 pools each of 25 goats, with negative results. The animals should be selected so as to increase the probability of detecting infection, i.e. older animals, animals in poor body condition.
7. **Approved Vaccinated Goat:** A goat that is:
 - Vaccinated with an approved JD vaccine by 16 weeks of age; or
 - Vaccinated with an approved JD vaccine after 16 weeks, when the flock was in the GoatMAP, or
 - had undertaken a negative Sample Test by PFC in the 2 years preceding the vaccination; or
 - Dis identified as an Approved Vaccinate in accordance with State legislation.
8. **Nationally approved kid rearing plan:** A kid rearing plan designed to minimise the spread of JD in intensively managed herds, which has been documented and agreed by GICA and Animal Health Committee.

NATIONAL CATTLE HEALTH DECLARATION EXPLANATORY NOTES

OVERVIEW

The Cattle Health Declaration is a legal document. Please complete accurately before signing.

Cattle Health Declarations are a way for producers to provide information about the health status of the cattle they are selling. Buyers should ask vendors for a Declaration and use the information provided to determine the health risks associated with the animals on offer.

Some states/territories require testing or certification additional to that outlined in this document e.g. Johne's disease (JD) in WA and for Enteric Bovine Leucosis (EBL) in Tasmania. Please check the entry requirements for any interstate movements at:

www.animalhealthaustralia.com.au/what-we-do/endemic-disease/livestock-movements

The original of this form is to be attached to the National Vendor Declaration (NVD) form accompanying the cattle, if applicable. A duplicate remains with the vendor; it is recommended the vendor retains a copy of this declaration for seven (7) years.

QUESTIONS 3 & 4: BOVINE VIRAL DIARRHOEA VIRUS (PESTIVIRUS) TESTING

Persistently infected animals can be detected by conducting a pestivirus antigen test. This test only needs to be conducted once in an animal's life. Cattle that test positive in most cases are persistently infected animals. Pestivirus antibody testing may be done to check the pestivirus status of the herd. Dairy cattle may be tested through bulk milk testing. Contact your veterinarian for assistance. Producers who don't know the answer to these questions should tick the 'N' box.

QUESTION 5: JOHNE'S DISEASE TESTING

Note: JD is a notifiable disease, so it is important to answer these questions.

Check test – testing of 50 adult animals in the herd (or all eligible animals in a herd if less than 50 adult animals) biased to increase the probability of detecting infection, tested by (pooled) faecal culture or (pooled) HT-J faecal PCR. An ELISA test is available but is not recommended and also not accepted for entry of cattle to WA.

Sample test – screening of the adult herd or a large representative sample of the adult herd by an approved test (pooled) faecal culture or (pooled) HT-J faecal PCR. See note above for ELISA test.

Herd Environmental Culture (HEC) Check Test (for dairy cattle) – a test of a representative sample of faecal material from the yard (see JD in [Cattle Definitions & Guidelines](#) for details). Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools.

QUESTIONS 6 & 7: JOHNE'S DISEASE

Occurrence of JD refers to clinical disease in the herd or on the property(s). Clinical disease is an infected animal with chronic diarrhoea and weight-loss that does not respond to treatment.

The **Johne's Beef Assurance Score** (J-BAS) is a voluntary tool developed for JD risk profiling. Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools. The J-BAS is an initial guide and purchasers should ask for more information about JD in the origin herd (see the JD in Cattle Biosecurity Checklist on the 'JD in cattle' webpage). The *National Farm Biosecurity Reference Manual - Grazing Livestock Production* provides a template to use for the property biosecurity plan. All plans should include the JD in Cattle Biosecurity Plan Checklist.

The **Johne's Disease Dairy Score** (JDDS) is a voluntary tool for JD risk profiling in dairy cattle. Information is available at www.dairyaustralia.com.au/bjd

Grazing of non-bovine species – Buyers of cattle from this consignment may consider the grazing of other JD-susceptible species (sheep, goats, alpacas) on the source property as important to their risk-management decisions. These buyers are entitled to seek information on how you have managed disease risks for all your livestock.

TREATMENTS & VACCINATIONS

Provide details on any cattle treatments in the last six (6) months and vaccinations within the last twelve (12) months.

Some manufacturers include more than one of the categories listed in the same vaccine, known as a combination vaccine. If you use a combination vaccine, each agent(s), as appropriate, should be detailed.

For vaccinations to be current, you must have followed the manufacturer's recommendation for vaccination. Typically, young animals or first time vaccinated animals need two (2) doses, followed by annual boosters. As variations to this general rule do occur (e.g. Silirum is given once only), you must use the manufacturer's recommendations.

At the date the declaration is made and as a result of the vaccination(s) given, the animals are considered protected from the diseases marked as treated.

DECLARATION

This section must only be completed by the owner or person responsible for the husbandry of the cattle in the consignment.

For more information on what is fit to travel, please see MLA's *Is it fit to load?* at www.mla.com.au/isitfittooad.
